### DETAILED ACTION

1. Claims 1-57 are presented for examination.

2. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-9, 30-47 and 55-57, drawn to scene layers, classified in class 345, subclass 611.
- II. Claims 10-22, drawn to light fields, classified in class 345, subclass 426.
- III. Claims 23-29 and 48-54, drawn to texture mapping triangles, classified in class 345, subclass 582.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are directed to related graphics processing technologies. The related inventions are distinct if the (1) the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect; (2) the inventions do not overlap in scope, i.e., are mutually

exclusive; and (3) the inventions as claimed are not obvious variants. See MPEP § 806.05(j). In the instant case, the inventions as claimed have a materially different design, mode of operation and function. Furthermore, the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.
